

#### Flooring, walls, ceilings

##### Nipponply

The brand was conceived with the intention of providing best quality decorative plywood, decorative and burma teak veneers, flush doors, and veneered laminates to the consumers. The brand also aims to change the perspective of ply – when used with various polishes, ply can bring the same warmth as that of veneer or laminate. It is also a material that can serve various decorative uses, for wall panels, ceiling designs, flooring and other surfaces. In fact, to showcase the strength, versatility and beauty of plywood, the brand created an entire shell at ET ACETECH, consisting of plywood panels and MS brackets. To design the
