# Nipponply's unique stall design attracted many visitors

Nipponply showcased its products in a beautiful stall design. This modern architectural marvel was very unique in its design and showcased various innovative applications of Plywood, Veneer and Laminates. This iconic stall design was very well received and the jury appreciated it very highly and thereby awarding them the Top Most Grand Stand Award – Iconic Booth Award.

What's unique about Nipponply is its Gold, Platinum & Silver Plywood range which has a higher face thickness and also has a decorative face which helps in its use as a decorative surface like veneer, laminate or duco. Nipponply also has its Diamond and Solitaire range of plywood which comes with Life Time Guarantee. All these plywood product range is very carpenter friendly, has a long life and results in a lot of cost saving.

Nipponply also has a very wide range of Decorative and Burma Teak Veneers, on which the patterns and designs can be made available both horizontally and vertically. These designs are updated and newer exclusive designs are available every month. Higher thickness veneers are also available.

Nipponply is the first company to introduce its Laminate Folder with a picture index, making it very easy for the clients to search for the laminate of their liking. Each laminate is available in suede as well as glossy finish, which helps the clients in budgeting. Similar patterns/designs is also available in different color sheets, spoiling you for choices.

Nipponply is a leading supplier of Plywood, Veneer, Laminate and Flush-door for the past 25 years. Nipponply sources the raw material from its origins ensuring its 100% authenticity. This also results in getting good quality products which are long lasting and rated very highly on the scale of strength.
